1. Introduction

At Yewtree, we understand the importance of the responsibility to safeguard and promote the welfare of children. Pupils may require assistance with intimate care because of their age, medical needs or due to having SEND. In all instances, effective safeguarding procedures are of paramount importance. This policy has been developed to ensure that all staff responsible for providing intimate care always undertake their duties in a professional manner and treat children with sensitivity and respect.

The school is committed to providing intimate care for children in ways that:

- Maintain their dignity.
- Are sensitive to their needs and preferences.
- Maximise their safety and comfort.
- Protect them against intrusion and abuse.
- Respect the child's right to give or withdraw their consent.
- Encourage the child to care for themselves as much as they can.
- Protect the rights of all others involved.

2. Aims

This policy aims to ensure that:

- Intimate care is carried out properly by staff, in line with any agreed plans.
- The dignity, rights and wellbeing of children are safeguarded.
- Pupils who require intimate care are not discriminated against, in line with the Equality Act 2010
- Parents/carers are assured that staff are knowledgeable about intimate care and that the needs of their children are considered.
- Staff carrying out intimate care work do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the pupils involved.

Intimate care refers to any care that involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas.

3. Legislation and statutory guidance

This policy complies with statutory safeguarding guidance. It also complies with our funding agreement and articles of association.

This Policy takes its legal framework from the following legislation and statutory guidance:

- Keeping Children Safe in Education 2020
- Working Together to Safeguard Children 2019
- The Children Act 2014

- The Education Act 2011
- The SEND Code of Practice 2014

4. Definition of Intimate Care

Intimate care can be defined as ‘care tasks of an intimate nature, associated with bodily functions, bodily products and personal hygiene, which demands direct or indirect contact with, or exposure of, the sexual parts of the body’. These tasks most people usually carry out themselves, but some pupils are unable to do because of their young age, physical difficulties or other special needs.

Intimate care tasks specifically identified as relevant include:

- dressing and undressing (underwear)
- helping someone use a potty or toilet
- changing nappies
- cleaning / wiping / washing intimate parts of the body.
- care associated with incontinence
- menstrual management
- supervision of pupils involved in intimate self-care

This list of examples is not exhaustive.

5. Role of Parents and Carers

5.1 Seeking parental permission

For children who need routine or occasional intimate care (e.g. for toileting or toileting accidents), parents/carers will be asked to sign a consent form.

For children whose needs are more complex or who need support outside of what's covered in the permission form (if used), an intimate care plan will be created in discussion with parents/carers.

Where there isn't an intimate care plan or parental consent for routine care in place, parental permission will be sought before performing any intimate care procedure. If the school is unable to get in touch with parents/carers and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents/carers afterwards.

5.2 Creating an intimate care plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (when possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately. Subject to their age and understanding, the preferences of the child will also be considered. If there's doubt whether the child can make an informed choice, their parents/carers will be consulted. The plan will be reviewed every year,

even if no changes are necessary, and updated regularly, as well as whenever there are changes to a pupil's needs.

See appendix 1 for a blank template plan to see what this will cover.

5.3 Sharing information

The school will share information with parents/carers as needed to ensure a consistent approach. It will expect parents/carers to also share relevant information regarding any intimate matters as needed.

6. Role of staff

6.1 Which staff will be responsible

Any roles who may carry out intimate care will have this set out in their job description. This includes Early Years Practitioners, Teaching Assistant and Teachers.

No other staff members can be required to provide intimate care.

All staff at the school who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

6.2 How staff will be trained

Staff will receive:

- Training in the specific types of intimate care they undertake if required, From SENCo advised by incontinence team.
- Regular safeguarding training
- If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as possible

They will be familiar with:

- The control measures set out in risk assessments carried out by the school
- Hygiene and health and safety procedures

They will also be encouraged to seek further advice as needed.

7. Intimate care procedures

7.1 Safeguarding and best practice

Most actions will take place on a one-to-one basis with an adult who has had a DBS check with a barred check list. We acknowledge that it is best practice from a health and safety and safeguarding perspective to have 2 members of staff present.

Wherever possible actions will be supported by a second staff member, with exception of first aid treatment that will be conducted by a qualified first aider.

Procedures will be carried out in the bathroom area of the EYFS environment and Acorns.

When carrying out procedures, the school will provide staff with:

Protective gloves, wet wipes, nappy bags, changing mat, cleaning supplies and bins. Intimate care will be given to a child who needs or asks for it. Staff will ask children if they would like help and wait for a verbal confirmation of action (for example a nod of the head) before helping the child. Staff who provide intimate care will conduct intimate care procedures in addition to any designated changing times if it is necessary; no child will be left in wet/soiled clothing.

Staff members will not be alone in a locked room when helping children with changing of clothes, nappy changes or changing clothes. The changing areas are warm and comfortable for the children and are private from others.

Hot water and soap are available for staff to wash their hands before and after supporting a child and the changing area will also be cleaned appropriately after use. If a pupil requires cream or other medicine, such as for a rash in an intimate area, this will be provided by parents and in accordance with the Administering Medication Policy, and full parental consent will be gained prior to this.

All children will be encouraged to use the toilet facilities and will be reminded at regular intervals to go to the toilet. Members of staff will get children used to using the toilet and encourage them to be as independent as possible. Children will be reminded and encouraged to wash their hands after using the toilet, following the correct procedures for using soap and drying their hands.

For pupils needing routine intimate care, the school expects parents/carers to provide, when necessary, a good stock (at least a week's worth in advance) of necessary resources, such as nappies, underwear and/or a spare set of clothing.

Any soiled clothing will be contained securely in a bag and discreetly returned to parents/carers at the end of the day.

7.2 Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance

(e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures. If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to Pascie King-Bushell.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

8. Monitoring arrangements

This policy will be reviewed and evaluated by Pascie King-Bushell annually. At every review, the policy will be approved by the headteacher, Karen Yilmaz

9. Links with other policies

This policy links to the following policies and procedures:

- Child protection and safeguarding
- Health and safety
- SEN

Appendix 1: template intimate care plan

PARENTS/CARERS	
Name of child	
Type of intimate care needed	
How often care will be given	
What training staff will be given	
Where care will take place	
What resources and equipment will be used, and who will provide them	
How procedures will differ if taking place on a trip or outing	
Name of senior member of staff responsible for ensuring care is carried out according to the intimate care plan	
Name of parent or carer	
Relationship to child	
Signature of parent or carer	
Date	
CHILD	
How many members of staff would you like to help?	
Do you mind having a chat when you are being changed or washed?
