

Child Protection Policy – Child Version

What does Child Protection mean?

Child protection means that at Yewtree Primary School, every adult believes that your health, safety and welfare are very important. In school we make sure that we keep you safe and protect your rights as children.

What is it for?

Our child protection policy helps everyone at Yewtree to:

- Be protected
- To decide what to do if there is a problem
- Find where to get help and support

How do we protect you and keep you safe?

- We provide a safe learning environment for you to learn and play in.
- We make sure you are safely looked after in school and at home.
- We help to make sure you thrive, grow and develop properly.
- We make sure you have the best life chances and grow up happy and successful.
- We will teach you how to recognise risks in some situations and how you can protect yourself and stay safe.
- We will teach you to know where to get help if you are worried or unhappy about something.
- We will teach you how to stay safe online.

You can talk to anyone at Yewtree if you have a worry or concern; your teachers, teaching assistants and lunchtime supervisors will all be able to help you.

You can write a note for your class worry monster or Mrs Yilmaz's worry box in the reception area. You could even ask a friend to help you tell an adult your worries. Everyone is here to help you stay safe.

If you have a worry, tell an adult and don't keep it a secret if someone is:

- Bullying you
- Saying things you do not like and which upset you
- Touching you
- Trying to give you tablets, cigarettes, vapes, drugs or alcohol
- Hitting you or hurting you
- Taking your things
- Saying or sending unkind things to you over the internet on your mobile phone or tablet
- Doing or saying things that make you feel uncomfortable
- Not looking after you or caring for you properly
- Trying to make you do something you know is wrong or unsafe.

or

If you don't want to talk to someone at school – here are some other people you can talk to:
